

## LanguageLine's 1Solution™ Dual Handset Phones

LanguageLine Solutions® over-the-phone interpreters can be accessed from most any phone. To facilitate easy, quick access that saves you time and increases your productivity, we offer session enhancing equipment including our dual handset phones.

No need to pass a handset back and forth when connected to a LanguageLine interpreter. Our dual handset 1Solution Phone™ offers the convenience of a handset for staff and another for the limited English speaker. The easy-to-clean phone is available in analog and internet protocol models to deliver compatibility to your organizations phone network for easy installation and use.

### THE 1SOLUTION ANALOG PHONE™ FEATURES:

- One-touch access to quality interpreters through pre-programmed buttons
- Individual handset volume control and speaker capability with volume control
- Non-volatile permanent dial out memory
- Step-by-step access instructions
- Easy to clean surfaces
- Ideal device in stationary situations, like front desks, reception desks, offices, or retail counters

### THE 1SOLUTION IP PHONE™ MODEL ALSO INCLUDES:

- 3.5mm headset jack
- Both LAN (Local Area Network) and WAN (Wide Area Network) ports
- Power Over Ethernet (POE): telephone works without AC power
- Session Initiation Protocol (SIP). SIP as a general protocol is considered to be the analog equivalent in the Voice-over-Internet-Protocol (VoIP) world
- Compatibility with virtually any IP PBX that allows SIP connections
- Certifications by Avaya and Cisco and pending Mitel Certification

As a valued LanguageLine Solutions client, you have the option to order equipment and accessories to fit the needs of your organization. Some of the equipment carries a modest monthly maintenance fee and other equipment can be purchased for a low flat rate. Please consult with your telecom group to determine which 1Solution Phone is compatible with your organization's telecom infrastructure.
